CSR INDUSTRIES

COMPANY PROFILE

Designers, Manufacturers & Erectors — Sugar Process Equipment · Material Handling Systems · Conveyor Systems & Spares · Mill House Spares

HEAD OFFICE & WORKS

Plot No. 382, Ekata Colony,
Near Water Tank, Yashwantnagar,
Kupwad, Sangli - 416416,
Maharashtra, India

SERVING

Domestic & International
Markets

FABRICATION & ENGINEERING EXCELLENCE

At CSR Industries, we combine advanced manufacturing technology with skilled workmanship to deliver robust, reliable and precision-engineered equipment for the sugar industry.

» STATE-OF-THE-ART FABRICATION FACILITY

Heavy Fabrication

Precision Engineering

Automated Welding

CNC Plasma Cutting

Plate Rolling

Quality Assembly

» CUSTOMIZED ENGINEERING SOLUTIONS

We provide end-to-end engineering solutions tailored to meet specific process requirements with complete customization.

- ✓ Concept to Commissioning
- ✓ 3D Design & Engineering
- ✓ Process Optimization
- ✓ Project Management
- ✓ Installation & Erection
- ✓ After Sales Support

QUALITY ASSURANCE

We follow stringent quality standards and testing procedures to ensure reliability, safety and superior performance of our equipment.

Quality Raw Materials

Skilled Manpower

In-Process Inspection

Dimension & Fitment Check

Weld Quality Assurance

Pressure & Leak Testing

Final Quality Approval

OUR STRENGTHS

Robust & Durable
Engineered for tough industrial environments and long life.

High Quality Standards
Strict quality control at every stage of manufacturing.

Experienced Team
Skilled engineers and technicians with industry expertise.

Advanced Infrastructure
Modern machines and tools for precision manufacturing.

Customization
Designed and built as per customer specifications.

Timely Delivery
Efficient planning and execution ensures on-time project delivery.

Customer Satisfaction
Strong focus on quality, service and long-term relationships.

Built with Quality Materials • Precision Engineering • Strict Quality Control • Long Service Life

MAJOR EQUIPMENT / PROJECT GALLERY

Delivering Quality Fabrication for the Sugar Industry and Allied Sectors

1 BOILER FEED WATER TANK

- ✓ Storage & supply of feed water to boiler
- ✓ Leak proof heavy-duty fabrication
- ✓ Designed for safe & long-term operation

Material : Carbon / Stainless Steel

Capacity : As per Client Requirement

2 BOILER CHIMNEY

- ✓ Flue gas exhaust from boiler
- ✓ High temperature resistant design
- ✓ Robust structure & weather proof

Material : Carbon Steel

Height : As per Project Requirement

3 FABRICATED PIPE

- ✓ Custom fabrication as per drawing
- ✓ High quality welding & finishing
- ✓ Suitable for steam, water & process lines

Material : Carbon / Stainless Steel

Size : Up to Large Diameter

4 MAGMA MIXER

- ✓ Uniform & consistent magma mixing
- ✓ Heavy duty and reliable design
- ✓ Low maintenance & long service life

Material : Mild / Carbon Steel

Capacity : As per Requirement

5 RIGHT ANGLE VALVE

- ✓ Flow on/off and direction control
- ✓ Leak tight and robust construction
- ✓ Renewable seat for long life

Material : Mild / Carbon Steel

Size : As per Pipeline Requirement

6 SUGAR SILO (6 NOS. WITH ELEVATOR)

- ✓ Bulk storage of sugar & materials
- ✓ Heavy duty structure for large capacity
- ✓ Integrated with elevator system
- ✓ Easy loading, unloading & maintenance

Material : Carbon / Mild Steel

Nos. : 6 Silos (As per Project)

PROJECT EXECUTION / DISPATCH / INSTALLATION

Showcasing CSR Industries capability in fabrication coordination, dispatch handling, site execution and installation support.

1 SUGAR BAG HANDLING SYSTEM

2 BAGASSE ELEVATOR

3 SUGAR GRASS HOPPER

Execution Strengths

Engineering Coordination
Coordinated planning with design and site teams.

Fabrication Coordination
End-to-end fabrication tracking and quality control.

Dispatch Planning
Safe packing, timely dispatch and logistic management.

Erection / Installation Support
Skilled site team for erection, installation and commissioning.

Quality Control
Strict inspection, documentation and compliance.

On-Time Project Execution
Committed to timelines with efficient execution.

MATERIAL HANDLING SYSTEMS, CONVEYORS & SPARES

Robustly engineered equipment and spares for efficient material handling,
designed for sugar and process industries.

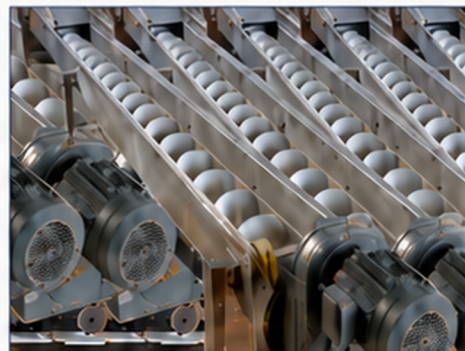

Sugar Bag Stacker Belt Type

Efficient stacking of bags with durable construction for smooth operation.

Sugar Bag Stacker Chain Type

Heavy-duty chain conveyors for reliable and continuous material flow.

Screw Conveyors

Compact and efficient conveying solution for consistent and controlled material flow.

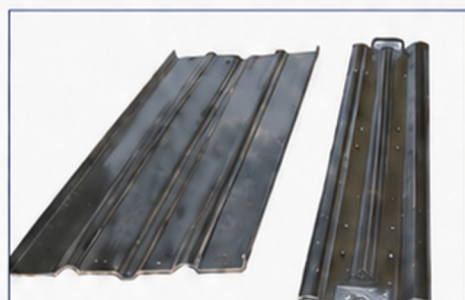

Impact Idlers

High performance idlers for smooth belt support and reduced maintenance.

Idlers

Precision manufactured rollers for long life, low friction and high efficiency.

CANE CARRIER SLAT

Durable slats designed for efficient conveying for all material handling systems.

Conveyor Drive & Tail Drum

Heavy-duty drive and tail drums for reliable power transmission and belt tracking.

Stacker Chain

Precision engineered stacker chains for strength, durability and smooth operation.

RAKES

Heavy-duty rakes designed for efficient material handling and long service life.

Robust Construction

Precision Engineering

High Reliability

Low Maintenance

Long Service Life

Customer Focused
